

CapSure® – VP

Sealed Edge Cleanroom Laundered 100% Polyester Knit wiper

CapSure®-VP is a sealed edge cleanroom laundered wiper that has been specially engineered for superior surface cleaning ability. A patented (#8,431,497) surface treatment allows the wiper to capture and retain particulate contami-

likelihood of cross contamination of critical surfaces. CapSure®-VP's no-run interlock knit construction provides a smooth surface texture and excellent absorbency characteristics.

This combination of particulate capturing technology, absorbency and very low fibers and particles results in the superior performance required in ISO Class 3 and above environments.

Key Attributes

- Patented surface treatment captures and retains particulate contamination, Patent #8,431,497
- 100% continuous filament polyester knit
- Sealed edge for reduced fiber contamination
- Laundered and packaged in Berkshire's ISO Class 4 cleanroom

Benefits

- Minimal particles, fibers, ions and extractables.
- Airborne particle release 80% lower than competitive particle attraction wipers
- Captures 42 times more particles than competitive (untreated) wipers
- Retains 93% of particles captured
- Chemically compatible with IPA, Acetone and other solvents
- Immediate adsorption of liquids for efficient spill clean-up

Environmental

- Light weight, high absorbency design reduces landfill waste impact when compared to more traditional heavier weight designs

Other Class 3 and above wipers

- CapSure®-LP
- MicroSeal SuperSorb®
- MicroSeal SuperSorb® Lite
- UltraSeal® 3000
- MicroSeal® 1200
- ValuSeal® LP
- ValuSeal® 1500

Applications

- Designed for use in ISO Class 3 and higher cleanroom environments
- Designed for the highest level of contamination control in critical processing applications
- Oxidation, Metallization, CVD or Photolithography processes
- Chamber cleaning and CMP processing
- Stencil and other print roll cleaning applications
- Steam autoclavable for aseptic applications
- Cleaning of medical device products

Value Pack Option

The value pack option provides the same great performance in a more economical bulk packaging format.

Notes:

- Technical data represented in this table are typical values at the time of publication. These should not be used as product specifications.
- Due to differences in test methods applied and equipment utilized by different wiper manufacturers, valid product comparisons may only be obtained through side-by-side testing in the same test facility, under similar conditions
- Third party testing can be performed upon request
